

## STRAIGHT DROP AWNINGS

### SIMPLE PRACTICALITY

Straight Drop Awnings are a simple, traditional option for providing protection from the sun. They are a simple, elegant, and blockout insulating solution for shading decks and patios. Awnings can also be applied to the exterior of windows to prevent sunlight coming inside your home. For extra convenience, your Straight Drop Awning can be fitted with a Wynmotion motor which can be controlled by a Wynmotion remote or Wynmotion Smart Home System.

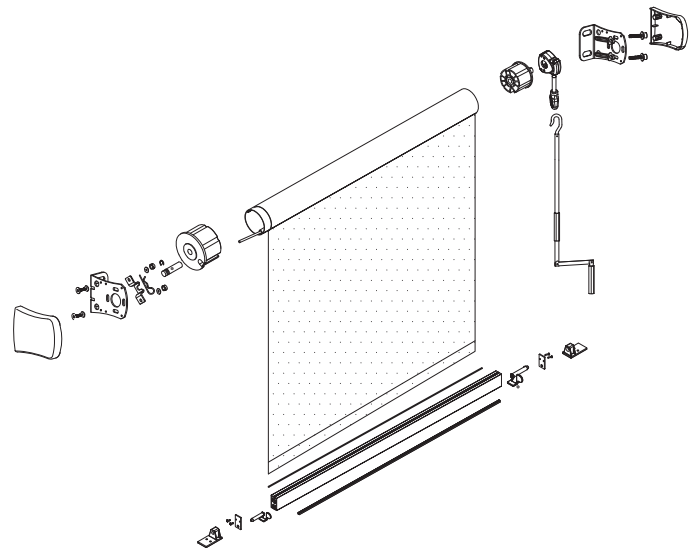

# TECHNICAL INFORMATION

## Installation

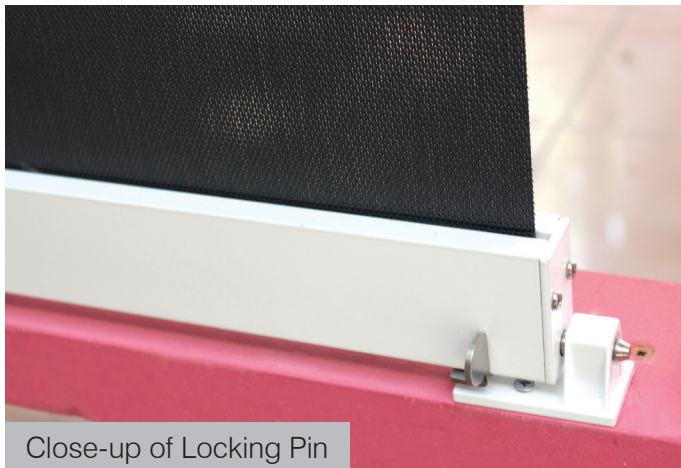

Straight Drop Awnings run at a right angle to the ground, much like blinds. Straight Drop Awnings do not require posts or channels. When fully rolled down, the fabric fastens at the base using either straps or clips.

## Operation

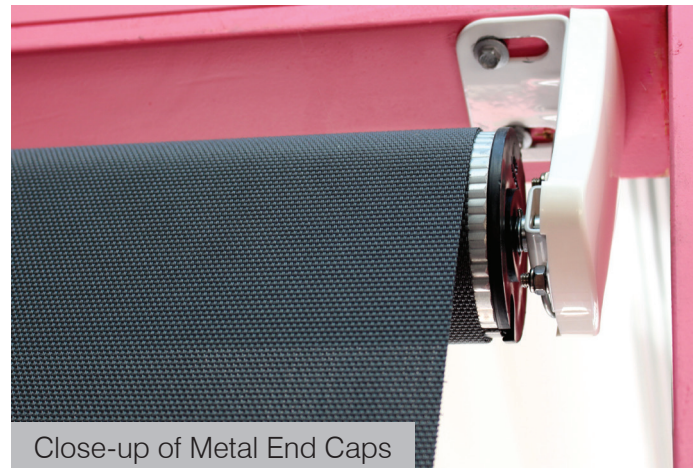

Straight Drop Awnings operate by crank control, which is simple and easy to use and requires very little force or effort. They can be motorised with Wynmotion for added convenience.

# BENEFITS

Close-up of Locking Pin

Close-up of Metal End Caps

## Multiple Fabrics Suitable

The Straight Drop Awning can be made with sunscreen, acrylic, or canvas fabric which is highly effective in blocking UV rays.

## Child-Safe

No cords or cables adds an extra level of child-safety.

## Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 year warranty.\*
