

CRIMSAFE SECURITY GRILLES

PROTECT YOUR HOME

Keep your home secure with Crimsafe, manufactured and installed by Wynstan. Crimsafe Grilles feature Crimsafe's patented Security Screw Clamp System and cannot be cut, kicked down or pried open. Crimsafe Security Grilles are fixed in place and will not budge and are custom made to fit any window or space.

TECHNICAL INFORMATION

Mesh

Crimsafe Security Grilles feature Crimsafe Tensile-Tuff® Security Mesh, which is made of 304 Grade Stainless Steel, making the grilles more than 4 times stronger than Australian Standard.

Clamp System

Crimsafe Security Grilles feature a patented Security Screw Clamp System. While inferior products simply glue or wedge mesh into a frame, Crimsafe sandwiches Tensile-Tuff® Security mesh between two serrated pieces of aluminium, then screws this mesh into place. This results in a strong, vice-like grip which has a much stronger tolerance to force than many competing products.

Custom Made

Crimsafe Security Grilles are custom made in order to perfectly fit your window. This ensures a clean finish and superior protection.

Colour

The frame of Crimsafe Grilles are available in a variety of different colours, ranging from shades of white and grey, to brown and blue. Various woodgrain tones are also available and offer a look that is impressively realistic. Crimsafe mesh is only available in black.

Heat Control

Crimsafe Security Grilles also offer superior heat control. When a Crimsafe Grille is applied over the whole area of a single glazed window, it will improve the window's 'Solar Heat Gain Coefficient' by up to 53%.

BENEFITS

Cross section of mesh and frame and the screw clamp system.

Excellent Security

Crimsafe are the world leaders in home security.

Streamlined
