

## OUTDOOR LIVING

The Eureka Conservatory Awning is a temporary roof style awning, especially designed for outdoor entertainment spaces for both residential and commercial buildings alike. These awnings can be fitted to an existing frame, or we can supply and install the awning and the frame for you. Eureka Awnings are motorised for ease of use.

# TECHNICAL INFORMATION

---

## Operation

The Eureka Awning is motorised, controlled using a remote, or connected to a Smart Home System. It runs on guides and retracts into a headbox.

## Size

The Awning can be manufactured up to 5 x 5 metres in size, effectively covering medium to large outdoor entertaining areas or conservatories. Multiple Awnings can also be installed side by side, utilising shared posts up to a maximum combined width of 15 metres.

## Hardware Colour

The standard hardware colour for the track and headbox is Pure white however custom colour options are available for an additional fee.

## Strength

The Eureka Awning uses a high tension system of belts and springs, ensuring the traction and tension of the fabric remain constant in any position. This system also increases the wind-resistance\* of the awning.

# BENEFITS

---

Awning retract into head box

## Retracts into Headbox

When retracted, the Awning is discretely concealed in a headbox, protecting the fabric and giving you complete control of light and shade.

## Child-Safe

The lack of cords or cables adds an extra level of child-safety.

## Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 Year Warranty\*.

\*For more information about our Wynstan 3 year warranty, please see our Warranty & Care Guide manual.

\*\* It is advised that your awnings not be left out during strong winds, nor when your home is unoccupied.
