

## VISION BLINDS

## DRESS TO IMPRESS

These eye-catching blinds feature a double layer of translucent and opaque strips of fabric, creating a striped pattern. The front layer moves independently from the back, allowing the stripes to glide past each other giving you control over the amount of light or privacy. Vision Blinds are as practical as Roller Blinds, but offer a contemporary edge and sophistication.

# TECHNICAL INFORMATION

## Control

Vision Blinds are operated by chain control, or Wyncmotion motor. The control chain, or motor, is used to raise and lower the blind, while also giving the ability to align the stripes for privacy or light filtering.

## Fabric

With Vision Blinds, you'll be spoilt for choice with colours and fabrics. Choose from an extensive range of contemporary colours and prints. These palettes consist of statement stripes featuring a range of dramatic metallic finishes, pretty sheers and natural woven effects. Some options are shown below.

Floreale Rosa

Viale Charcoal

Linoso Blush

Lusso Pebble

Setosa Pewter

Capri Navy

## Fit

Vision Blinds can do both Reverse roll and Standard roll from the same cassette system.

# BENEFITS

Partial View

Full privacy

## Vane size
