

ROLLER BLINDS

MODERN AND PRACTICAL

Create a sleek, modern look with a Roller Blind. Roller Blinds are neat and discreet when retracted, and tasteful when extended out.

Double Roller Blinds are also available. We recommend a combination of a blockout with a light filtering or sunscreen fabric for greater versatility. Front and rear blinds can be adjusted independently of each other, giving you control over light and privacy.

TECHNICAL INFORMATION

Control

Roller Blinds are operated by chain control. If you have large windows where multiple blinds are needed, they can be linked together to enable operation by a single control. For extra convenience and safety, your Roller Blinds can be fitted with a Wynmotion motor and controlled by Wynmotion Remote, Wynmotion Wand or Wynmotion Smart Home System.

Fabrics

Roller Blinds can be made in blackout, light-filtering or sunscreen fabric. Each fabric type also has numerous colours, patterns and textures providing you with an extensive range to choose from.

Double Roller Blinds

With a Double Roller Blind, a blackout fabric is positioned in front of a sunscreen or light-filtering fabric on separate rollers. These rollers move independently of each other, giving you control over light and privacy. This makes Double Roller Blinds especially suited to bedrooms.

Widths

Dependant on the fabric, roller blinds can go as wide as 3200mm. Wider openings and windows would require multiple blinds. Speak to one of our Sales Representatives to find the best solution for your home.

BENEFITS

Range of Fabrics

Roller Blinds can be made with a very broad range of fabrics. There is an option to suit any decor.

Child-Safety

We install child-safety devices on all products in order to keep the little ones safe.

Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 year warranty*.

*For more information about our Wynstan 3 year warranty, please see our Warranty & Care Guide manual.
