

CABLE GUIDE

AWNINGS

CABLES FOR EXTRA WIND RESISTANCE

This robust system not only provides UV protection and air flow, it is incredibly durable and provides the best option **Cable Guide is ideal where wall mounting a side channel isn't practical, such as open balconies or glass facades.** Featuring stainless steel cables perfect for seaside homes. The bottom rail moves up and down the cable guides creating a smooth operation.

Monument

Hold Down Options

Cable Guide Awnings are guided by tensioned stainless steel cables, allowing smooth vertical movement and mid-stop positioning. To keep the awning secure when fully lowered, optional hold-downs can be added:

Straps with D Handle – Easy to use and ideal for attaching to railings.

Locking Pin – Fixed point installation into decking or concrete.

Dog Clips – Discreet clip-in solution for a neater finish.

BENEFITS

Extra Strength Cable

The cables are high tensile 2.5mm 316 grade marine stainless steel, making them perfect for coastal applications.

Slimline and Unobtrusive

The stainless steel cables provide discreet side guidance without channels – perfect for modern facades and glass-fronted balconies.

Satisfaction Guaranteed
