# TECHNICAL INFORMATION

## Colour

There is a wide range of block-out and translucent prints and textures fabrics that all come with 100% UV protection.

## Automation

By doing away with cords and chains, choking hazards are removed and your home is safer for toddlers and small children. Automation allows for a sleeker finish, which is ideal for child safety.

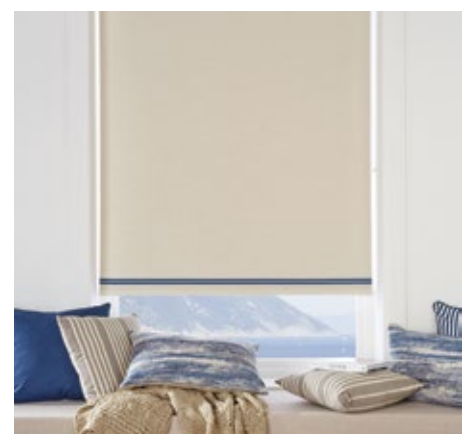

## Child Safety

Wynstan always fits a child safety device on every cord-operated product and ensures that your blinds have been installed correctly. These safety devices are intended to remove the hazardous loop from the reach of children.
