

FIXED STEEL AWNINGS

STRONG AND RIGID

Enjoy permanent shade with strong Fixed Steel Awnings. Manufactured from tough COLORBOND® steel, Fixed Steel Awnings provide protection from rain and damaging UV rays. Fixed Steel Awnings are suitable for both large and small areas and can be made in a variety of different colours and patterns.

TECHNICAL INFORMATION

Installation

Steel Awnings are fixed to the wall, with a pitch variance between 15° and 45° – the choice is yours. If you require a large Awning, we recommend the use of support posts to further increase the stability of the Awning.

Colour

Fixed Steel Awnings allow for a choice between thirteen different colours. The awnings can also have multiple colours fitted applied so that you can match any other existing colour schemes around the home.

Note: Colours should be used as a guide only.
Outcome may vary across different screens/printers.

BENEFITS

Strong

Fixed Steel Awnings have superior strength, allowing them to withstand the elements.

Protection

Fixed Steel Awnings provide rain shelter and sun protection, where most awnings are only designed to provide sun protection.

Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 year warranty*.

*For more information about our Wynstan 3 year warranty, please see our Warranty & Care Guide manual.
