Light Control

Our Curtain range offer the ultimate in light control, especially when paired with Roller Blinds. Sheer curtains can be used to diffuse the light, while a blackout roller blind behind will create the hotel feel of complete darkness while you sleep.

On Trend

Curtains are a favoured choice of architects and interior designers. Ideal for creating a relaxed and soft appearance around your windows, they add a luxurious layer that works with modern interiors.

Child-Safe

The lack of cords or cables adds an extra level of child-safety.

Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 Year Warranty**.
